Amazon Echo | Fire TV Stick | Kindle

Echo Category

The Echo Series

The Echo series comprises of a range of smart speakers that can be operated remotely using only voice. Simply ask "Alexa" to play music, read the weather and news aloud, operate smart homes, set alarms, show your favourite TV shows or stream music videos and more.

- **Support your life**

Set timers and alarms, manage your shopping list, pay bills, play kids' rhymes and stories and more with just your voice. In addition, you can play music just by talking to Echo - just by specifying the song name, artist name or genre, or let Alexa select the song. Just ask- "Alexa, play Jazz".

- **Experience the magic of Alexa smart home**

With Echo and Alexa-enabled appliances, you can turn off the lights without getting out of bed. You can also turn on a geysers, TV or air conditioner without having a remote control a hand. Just ask - "Alexa, turn off the AC".

echo flex

Plug-in type

Just plug the Echo Flex into a power outlet. From the front doors to the hallways to the corners of your room, Alexa can help make your life a little more enjoyable and convenient

echo dot

To the first one

The compact size makes it perfect for small spaces. Sound quality is improved compared to the previous model. It is also connected to speakers or headphones via Bluetooth or a 3.5 mm stereo jack

echo dot

Clear sound produced from the spherical form

Introducing a popular model as a sphere. The compact form of the sphere produces a rich sound with clear vocals and balanced bass

echo dot WITH CLOCK

Perfect for the bedside

The Echo Dot with Clock, a smart speaker with a clock, has been reborn as a sphere. You can also snooze the alarm with just a tap.

echo auto

Plug-in type

Just plug the Echo Flex into a power outlet. From the front doors to the hallways to the corners of your room, Alexa can help make your life a little more enjoyable and convenient
